

Family Partnerships That Support Health and Mental Health

RESOURCE GUIDE

Support families to:

- Find a medical home for their child
- Care for their children's oral health and dental care needs
- Identify community health resources
- Meet their children's need for sleep and help their infant learn to self-soothe
- Breastfeed, if possible
- Wait until the infant is developmentally ready to introduce solid foods
- Provide proper nutrition, including plenty of vegetables and fruits
- Choose whole foods when possible
- Limit foods high in sugar
- Provide opportunities for fun, active play
- Limit screen and TV time

Support parents to:

Seek care for mental health concerns, including postpartum mood disorders such as Baby Blues, Postpartum Depression, Postpartum Anxiety Disorder, and Postpartum Psychosis

- Do not diagnose or provide therapy
- Provide resources and help families access them
- Encourage them to stick to the treatment plan
- Report concerns over care of the children to your supervisor and the appropriate reporting agency (e.g. Child Protective Services)
- Talk with your supervisor in supervision about how to best approach the topic of mental health with families

Resources

Chapter 1: Welcome

- Welcome - [Video](#)

Chapter 2: Health and Mental Health Overview
